When it comes to wine, we like to make our own rules – the only thing we're really serious about is the quality.

[yellow tail] is instantly recognisable, both for its appearance and its personality. The following tasting note is designed to give you an insight into [yellow tail] Riesling, but if you want to cut to the chase, it's simple... drink it, share it, and enjoy it.

### VINTAGE 2010

South Eastern Australia experienced a lot of rain in the winter and spring of 2009 which provided good soil moisture for the rest of the season. A heat wave in summer spurred healthy canopy growth and early fruit development. March 2010 was much cooler and slowed ripening, allowing time for ideal flavour development.

The grapes were regularly quality tested in the lead up to harvest and delivered to the winery in ideal condition – plump, healthy and with a good balance of water, sugar and flavour.

### REGION South Eastern Australia.

**WINE** [yellow tail] Riesling is made with grapes sourced from the highest quality vineyards. The fruit is harvested during the cool of the night to retain maximum freshness and flavour. Free run juice is then cold fermented using specially selected aromatic yeast. Once completed, the wine is cold stabilised and cold filtered to preserve rich aromas and freshness. The wine is bottled at the winery in Yenda, outside Griffith, New South Wales.

Alcohol: 12.5% | pH: 3.2 | TA: 6.08g/L | RS: 11-12g/L

**FLAVOUR** [yellow tail] Riesling immediately releases fresh lemon, lime and peach aromas. This light, refreshing Riesling will leap from your glass and you may even catch a hint of honey and floral characters. This wine is like citrus tart – slightly sweet with a tight acid backbone.

**ENJOY** [yellow tail] Riesling is created with a simple philosophy in mind - to make a great wine that everyone can enjoy anytime in any place. This is why we're reluctant to tell you what to enjoy it with. If you really want some suggestions, enjoy this wine with fish and chips by the beach.
