

# [yellow tail]<sup>®</sup> Reserve

“These are the wines we love to make. Big, bold, juicy reds that are well balanced.”

– John Casella

## CABERNET SAUVIGNON

Nature is full of surprises. Every vineyard seems to have that special patch where grapes grow with just a bit more flavour.

The [yellow tail] Reserve range is crafted from grapes picked in the finest vineyards across Australia.

Made by family-owned Casella Wines, the [yellow tail] Reserve range is designed to be a premium fruit driven style with softness and drinkability. The fruit is predominately from Australia’s premium cool climate regions and demonstrates elegance, balance, finesse and length of flavour.

Great wine begins with the best grapes for [yellow tail] Reserve. You can taste the difference.

Vintage	2010
Variety	Cabernet Sauvignon
Vineyard Region	South Eastern Australia
Winemaker Comments	This wine is the quintessential expression of premium Australian Cabernet Sauvignon! It is full of ripe black cherry flavours mixed with mint that is characteristic of the Coonawarra fruit. The wine has spent some time in contact with oak, helping to smooth out the tannins and add complexity and elegance.
Vintage Conditions	Fruit for this wine was predominantly sourced from the Limestone Coast of South Australia, an area that experienced good rainfall in the winter of 2009 and a very hot summer in 2010 that accelerated fruit development. Cabernet Sauvignon is regarded as a standout variety from South Australia, with outstanding varietal character and tannin.
Maturation	Drink now, or cellar for up to four years.
Wine Analysis	Alc/Vol: 13.82%   Acidity: 5.8   pH: 3.54
Flavour Notes	Ripe flavours of black cherry and blackberry are complemented by notes of chocolate and mint. This full-bodied style is bold and robust with a long-lasting finish.
